

FIRST INTERNATIONAL ABDOMINAL WALL SURGERY MEETING

AND

5th National THS Congress

11- 13 December 2025

GOLDEN TULIPE EL MECHEL TUNIS-TUNISIA

With the participation of

First International Abdominal Wall surgery Meeting

President: Pr Farouk SEBAI

**Dear Colleagues and Friends,
It is with great pleasure that we welcome you to the
International
Wall Hernia Surgery meeting , held in conjunction with
the 5th Congress
of the Tunisian Hernia Society, from December 11 to 13,
2025,
in Tunis.**

**This prestigious event will bring together leading
experts, surgeons, and researchers from
around the world to share the latest advancements in
hernia surgery, exchange experiences,
and discuss innovative techniques that shape the
future of our field. The congress will feature
high-level scientific sessions, live surgeries, and an
engaging platform
for networking and collaboration.**

**Tunisia, at the crossroads of civilizations, offers an
exceptional setting for this international
gathering. We invite you to join us in Tunis to
contribute to the success of this event, enrich
your expertise, and enjoy warm hospitality of our
country.**

Looking forward to welcoming you all!

First International Abdominal Wall surgery Program

***DAY 1*: 11-12-2025**

8H – 9H : Inscription – Accueil des participants

9H – 10H30: Session 1 : Oral Presentations I (8 min + 2 min)

Modérateurs : A. Chouchane – M Hawala - W. Triki –M.B. Khelifa – I. Bouaskar

1-- Hernie inguinale laparoscopique : la TEP, une alternative plus sûre que la TAPP ? Résultat d'un essai clinique randomisé.

S. Mesli AGhouali, F. Medjaoui F. Benamra, H Lachachi, L. Bouhmama, F Ghirene, F. Benamra, N.

Service de chirurgie générale « A » CHU Tlemcen - Université de Tlemcen. (ALGERIE)

2- Long-term outcomes after Lichtenstein hernia repair a single center experience.

F. Benamara, A Ghouali, H Lachachi, F. Medjaoui L. Bouhmama, F Ghirene, N. S. Mesli.

Service de chirurgie générale « A » CHU Tlemcen - Université de Tlemcen. (ALGERIE)

3- Various new modalities of mesh fixation in Laparoscopic inguinal hernia repair advantage and drawback : systematic review.

Aiman allawgali.

Alkhadra general hospital (LIBYE)

4- Laparoscopie et hernie inguinale : la bataille tep/tapp continue.

Laouissat sarra, Bouchakour errahmani sarah, Zatir soufiene, Benkada mohamed

Service de chirurgie generale /CHU de mostaganem, hopital central de l armee . (ALGERIE)

5- Quand la BPCO et l'amputation défient la paroi : réparation réussie d'une éventration multiloculaire géante avec perte du droit de cité

Amal Letaief, Mariem Harroum, Asma Sghaier, ElGhali Mohamed Amine, Sabri Youssef

Service de chirurgie générale CHU Farhat Hached Sousse

6- Laparoscopic Repair of Pediatric Inguinal Hernia: Are We Really Saving Time?

Yosra Elmansouri, Sabrine Ben Ammar, Yosra Kerkeni, Riadh Jouini

Pediatric Surgery department, Bechir Hamza Children's hospital

7- Prise en charge des éventrations de type M5 (sus-pubienne) par technique « IPOM-plus »

N. CHADLI – A. MENASRIA – A. MEGHAIZROU – A. LITIM – A. REMINI – A. BENSLIMANE –A. BELKADI – N. TAHLAITI – R.

MAHIEDDINE – R. DJAID – A. HALIMI – O. TILIOUA

EHU ORAN (Algeria)

8-Traitement laparoscopique des hernies incisionnelles latérales par technique IPOM+

A. MENASRIA – M. BOUBEKEUR - N. CHADLI – A. LITIM – A. REMINI – A. BENSLIMANE –A. BELKADI – N. TAHLAITI – R.

MAHIEDDINE – R. DJAID – A. HALIMI – O. TILIOUA

EHU ORAN (AIGERIE)

9- Anterior Diaphragmatic Hernias in Children: Clinical Presentation, Diagnosis, and Management

boukettaya mariem, Marzouki Mariem, Jarray Leila, Ben Ahmed Yosra, Jouini Abir, Nouira Faouzi, Jlid said

Pediatric Surgery Department, Bechir Hamza Children Hospital, Tunis, Tunisia

10H30 – 11H: Coffee break

SESSION POSTERS I

Modérateur : M.Sahnoun, F. Thamri, A.Changuel

1. Diagnostic tardif d'un kyste du cholédoque de type Ic chez une patiente âgée ayant subi une cholédoco-duodénostomie : un cas clinique rare

Rabti Souphia, Ben Hassine Basma, Ben Marzouk Sawssen, Changuel Amel, Khalifa Mohamed bechir

Service de chirurgie générale : Hôpital Militaire de Tunis

2. Emphysematous gastritis revealed during septic shock: a rare but fatal complication

Rabti Souphia, Ben Hassine Basma, Ben Marzouk Sawssen, Changuel Amel, Khalifa Mohamed bechir

Service de chirurgie générale : Hôpital Militaire de Tunis

3- Score biologique pré opératoire révélateur d'une nécrose intestinale Lors d'une hernie de l'aine étranglée

Boukralfa Toufik, Ayad.A

Urgence chirurgicale CHU oran. Algerie

4. Hernie diaphragmatique révélée par une occlusion intestinale

Boukralfa Toufik, Ayad.A

Urgence chirurgicale CHU oran. Algerie

5. Maladie De Crohn Compliquée D'une Fistule Colo-Splénique : A Propos D'un Cas

Yasmine Jedidi, Ahmed Ben Mahmoud

Service de chirurgie A, La Rabta

6. An Unusual Case of Unilateral Adipomastia in a 15-Year-Old Boy

Nesrine Chebil, Takoua Chalouati, Houda Kamoun, Ahlem Ourfelli, Anis Hasnaoui

Department of surgery, Menzel Bourguiba Hospital, Menzel Bourguiba, Tunisia

7. Strangulated Inguinal Hernia Leading to Stercoral Peritonitis in a Newborn: A Diagnostic and Surgical Challenge

Souad Meddeb, Marzouki Meriem, Aziz Mseddi, Yosra Ben Ahmed, Said Jlidi

Service de chirurgie pédiatrique hôpital d'enfants Bechir Hamza

8. Ovarian Inguinal Hernia in Children: Current Knowledge and Treatment Options

Wiem Hammouda, Amina Karray, abir jouini, Mariem Marzouki, Faouzi Noura, Said Jlidi

Paediatric Surgery Department, Bechir Hamza Children Hospital, Tunis, Tunisia

9. Pediatric Testicular Torsion: Clinical Presentation and management strategies

Wiem Hammouda, Amina Karray, abir jouini, Mariem Marzouki, Faouzi Noura, Said Jlidi*

Paediatric Surgery Department, Bechir Hamza Children Hospital, Tunis, Tunisia

10. Communicating hydrocele revealing an intraperitoneal hydatid cyst

Rim Ezzine, Nada Sghairoun, Aziz Mseddi, Fatma Thamri, Souha Sholi, Sondes Sahli, Said Jlidi

Service de chirurgie pédiatrique- Hopital d'enfants de Tunis

11. Late presenting congenital diaphragmatic hernia in children: what's the deal?

Houidi Senda, Boukettaya Mariem, Meherzi Oussema, Thamri Fatma, Kerkeni Yosra, Jouini Riadh, Jlidi Said

Pediatric Surgery Department, Bechir Hamza Children Hospital, tunis, Tunisia

11H – 13H : Session 2: Keynote Lecture I (15min+5min)

Moderators : M. Ben Moussa – H Chaker – F. Frikha - F Agresta- I Ammeri

1-TAPP is just a standadization of the technique based on morethan 20 years experience and more than 2000 cases

Ferdinando Agresta (Italy)

2- LAP management of Gilmore's Hernia TAPP after recurrent open inguinal hernioplasty

Faheem Bassiony (Egypt)

3- Complications and solutions in abdominal wall surgery.

Campanelli (Italy)

4- Are robotic surgery and artificial intelligence sufficiently helpful in hernia treatment?

Manana Gogol (Georgia)

5-Résultats de la prise en charge des hernies de l'aïne par TAPP.

Ismail Ammari (Algeria)

6- 2025 recommendations for the management of large abdominal incisional hernias.

Imen Ben Ismail (Tunisia)

13H – 14H30: Lunch

14H-15H30: Session 3: Panel Discussion I

Theme: Obesity and anterior abdominal wall hernia

Coordinator: F Sebai

Panelists: J Hatem- R Nouira- F Bassiony- A Abdelmaguid- S Ayadi

15H30 – 16H: Coffee break

SESSION POSTERS II

Moderator: Hajer Behi, Salsabil Nasri

1. A Rare Case of Sliding Inguinal Hernia Containing Ovary and Fallopian Tube in an Elderly Woman
Bouhlel Yassine, Sghaier Asma ,Maatoug Zeineb, Letaief Amal, El ghali Mohamed Amin, Youssef Sabry
Service de chirurgie générale, CHU Farhat Hached, Sousse

2. Early Intestinal Obstruction After Laparoscopic Ventral Hernia Repair: A Rare but Serious Complication
Bouhlel Yassine, Sghaier Asma ,Maatoug Zeineb, Letaief Amal, El ghali Mohamed Amin, Youssef Sabry
Service de chirurgie générale, CHU Farhat Hached, Sousse

3. Initial Experience with Pediatric Laparoscopic Hernia Repair and Systematic Review of the Literature
Ghaddab Nader Bennour, Sghairoun Nada, Aziza Bochra,Houas Yasmine, Jlidi Said
Service de chirurgie pédiatrique hôpital d'enfants de Tunis

4. Prise en charge de la hernie diaphragmatique post-traumatique chez l'enfant
Ghaddab Nader Bennour, Sghairoun Nada, Aziza Bochra,Houas Yasmine, Jlidi Said
Service de chirurgie pédiatrique hôpital d'enfants de Tunis

5. The diagnostic challenge of Littre's hernia in children: case report and review of the literature
Bochra Aziza; Nader Bennour Ghaddab, Syrine Laribi, Rim Kchaw, Malak Boughdir
Pediatric surgery department, regional hospital of Nabeul

6. Factors Determining Laparoscopic vs. Open Hiatal Hernia Repair in Pediatric Patients
Bochra Aziza; Nader Bennour Ghaddab, Syrine Laribi, Rim Kchaw, Malak Boughdir:
Pediatric surgery department, regional hospital of Nabeul

7. Management of Pediatric Umbilical Hernia: Is Early Surgery Necessary?
Syrine Fkaier, Nada Sghairoun, Rihab Andolsi, Souad Meddeb, Riadh Jouini, Said Jlidi
Pediatric Surgery Department, Bechir Hamza Children Hospital of Tunis

8. Is routine exploration of the contralateral side warranted in children with unilateral inguinal hernia? A systematic review and meta-analysis.
Syrine Fkaier, Nada Sghairoun, Wiem Hammouda, Mariem Boukattaya, Riadh Jouini, Said Jlidi
Pediatric Surgery Department, Bechir Hamza children's hospital Tunis

9. Fréquence, facteurs favorisants et prise en charge de l'éventration chez l'enfant
Rihab.Andolsi, Nada sghairoun,,Fkaier Syrine,Jlidi Said,Jouini Riadh.
Service de chirurgie pédiatrique Hichem Said hopital d'enfant

10. Douleurs chroniques après une chirurgie herniaire inguinale chez l'enfant

Rihab.Andolsi, Nada sghairoun, Fkaier Syrine,Jlidi Said,Jouini Riadh
.Service de chirurgie pediatrique Hichem Said hopital d'enfant

11. Clinical Factors Correlated with the Development of Metachronous Contralateral Inguinal Hernia in Children Following Unilateral Repair

Mariem Marzouki, BOUKETTAYA M, HAMMOUDA W, Ben Ahmed Y, Ezzine R NOUIRA F, JLIDI S
Pediatric Surgery Department, Bechir Hamza Children Hospital, Tunis, Tunisia

12. Descriptive Study of Children Operated for Metachronous Bilateral Inguinal Hernias

Mariem Marzouki, BOUKETTAYA M, HAMMOUDA W, Ben Ahmed Y, Ezzine R NOUIRA F, JLIDI S
Pediatric Surgery Department, Bechir Hamza Children Hospital, Tunis, Tunisia

13. Comparison of Surgical Outcomes Between Residents and Certified Surgeons in Pediatric Hernia Repair

Sara Kacem, Nada Sghairoun, Fkaier Sirine, Jouini Riadh, Said Jlidi
Service de chirurgie pédiatrique - Hôpital d'enfants Béchir Hamza de Tunis

16h- 17h30: Session 4: Joint Session with STCL (30 min)

Moderators : A BenAli, M Boubker, K Zouari, M H Manai, F Derbel

1. Parastomal hernias.

Salsabil Nasri (Tunisia)

2. Hernie, éventration chez un sujet obèse : Que faire ?

Mahdi Ben Latifa(Tunisia)

3. Attitude vis-à-vis d'une éventration multi-orificielle.

Mohamed Ali Chaouch (Tunisia)

18H: Opening Ceremony

DAY 2: 12-12-2025

9H – 10H30 : Session 5: Oral Presentations II (8 min + 2min)

Moderators : N Chadli- Abdelhakim Gila- M. Kacem – M Adala – D Cherif – A. Makni

1. **Lecture: L'obésité: un facteur de risque chirurgical (15min+5 min)**
Mourad Adala (Tunisia)
2. **When to repair a ventral hernia in Bariatric Patients**
Fethi Zouaoui (Libye)
3. **The role of nutritional therapy in preparing the patient for abdominal wall surgery**
Afef Mustapha. Benghazi (Libye)
4. **Pré habilitation et optimisation métabolique du patient avant chirurgie pariétale majeure**
N.talbi, c.hakimi,r.kebbour,i.selmani,o.nebbar ,f. Mekeddem,s.allag, a. Bouharoud,n. Lemdaoui (Algeria)
5. **De la chirurgie ouverte à la laparoscopie : retour sur 8 années de changement progressif dans la cure des hernies inguinales**
*A Ghouali, F. Benamara, H Lachachi,F.Medjaoui L. Bouhmama, F Ghirene, N. S. Mesli
Service de chirurgie générale « A » CHU Tlemcen - Université de Tlemcen. (ALGERIE)*
6. **Fistule entero cutanée sur plaque d'événtration**
*F.Medjaoui F. Benamra, A Ghouali, H Lachachi, L. Bouhmama, F Ghirene, F. Benamra , N. S. Mesli
Service de chirurgie générale « A » CHU Tlemcen - Université de Tlemcen. (ALGERIE)*
- 7- **Traitement laparoscopique des hernies ventrales par technique e-TEP (video)**
*O. TILIOUA - A. MENASRIA - N. CHADLI – A. REMINI – A. BENSLIMANE –A. BELKADI – N. TAHLAITI – R. MAHIEDDINE – R. DJAID – A. HALIMI – M. BOUBEKEUR.
EHU ORAN (ALGERIA)*

10H30 – 11H : Coffee break

SESSION POSTERS III :

Moderator: Asma Guitouni, Wael Ferjaoui

1. **Diaphragmatic eventration: Clinical presentation, management, and outcomes**
*Fares Chaabouni, Rabiaa Ben Abdallah, Ahmed Ben Younes, Souha Laarif, Cyrine Saadi, Asma Jabloun, Fatma Trabelsi, Aida Daib, Youssef Hellal
Paediatric Surgery Department, Hospital Habib Thameur, Tunis, Tunisia*
2. **Testicular Preservation in Incarcerated Inguinal Hernia**
*Fares Chaabouni, Rabiaa Ben Abdallah, Ahmed Ben Younes, Souha Laarif, Cyrine Saadi, Asma Jabloun, Fatma Trabelsi, Aida Daib, Youssef Hellal
Paediatric Surgery Department, Hospital Habib Thameur, Tunis, Tunisia*
3. **Occlusion colique aiguë par volvulus du colon transverse : à propos d'un cas**
*Dorsaf Mouelhi, Aya Saidani , Laila Jedidi , Senda ben Lahouel
Service de chirurgie viscérale , Hôpital régional de Jendouba*
4. **Eventrations de la paroi abdominale antérieure chez l'enfant – revue systématique de la littérature**
*Sara Kacem, Nada Sghairoun, Fkaier Sirine, Jouini Riadh, Said Jlidi
Service de chirurgie pédiatrique - Hôpital d'enfants Béchir Hamza de Tunis*
5. **Occlusion intestinale aiguë sur hernie de Spiegel étranglée : à propos d'un cas**
*Ben Hassine Basma, Rabti.Souphia, Ben Marzouk.Saswsen, Haloui.Nabil, Changuel.Amel, Khalifa.MB
Service de chirurgie viscérale de l'hôpital militaire de Tunis*

6. **Cystadénome mucineux de la queue du pancréas compliqué par une surinfection : à propos d'un cas**
Ben Hassine Basma, Rabti.Souphia, Ben Marzouk.Saswsen, Haloui.Nabil, Changuel.Amel, Khalifa.MB
Service de chirurgie viscérale de l'hôpital militaire de Tunis

7. **Intérêt de la coelioscopie dans les reprises de chirurgie pariétale : à propos d'un cas**
Harroum Mariem, Dhouioui Khairi, Jmal Firas, soula Baha, Youssef Sabri
Service de chirurgie viscérale et digestive, Hopital Farhat Hached sousse

8. **Unusual Form of Testicular Ectopia Associated with an Inguino-scrotal Hernia**
Houidi Senda , boukettaya mariem, Ezzine Rim, Kerkeni Yosra, Jouini Riadh, JLIDI Said
Pediatric Surgery Department , Bechir Hamza Children Hospital, Tunis, Tunisia

9. **Management of ovarian hernia in children**
Houidi Senda,boukettaya mariem, Ezzine Rim, Kerkeni Yosra, Jouini Riadh, JLIDI Said
Pediatric Surgery Department , Bechir Hamza Children Hospital, Tunis, Tunisia

11h30- 13h: Session 6: Keynote Lecture II (15min+5 min)

Moderators : M. Jouini – M. Menasria – Z. Ben Safta- F.Zouaoui- O. Tilioua

1. **Emergency laparoscopic ICG treatment in small bowel obstruction: Who, What, When, How and Why?**
Ferdinando Agresta (Italy)

2. **When to repair a ventral hernia in Bariatric patients**
Fathi Elzowawi (Libye)

3. **Modern treatment of isolated spleen injury (laparoscopic, Endovascular...).**
Alexey Severtsev (Russia)

4-**Effect of Mesh position on ventral hernia outcome.**
Hassan Chaker (Egypte)

5-**Traitement d'une éventration récidivante avec plastie.**
M.H. Manai (Tunisia)

13h-14h: Lunch

14h-15h: 30: Session 7: Panel Discussion II

Theme: Liechtenstein versus laparoscopic hernia repair

Coordinator: Hassan Chaker

Panelists: Farouk Sebai- Mohamed Hedi Manai- M Menasseria- Mohamed Ben Slima

15h30-16h: Coffee break

SESSION POSTERS IV

Moderator : Sarra Saad- Nabil Halouwy

1. Unusual Association of Right Congenital Diaphragmatic Hernia and Eventration in a Newborn

mariem boukettaya, Sghairoun Nada ,zouaoui aryj, ezzine rym, souha, Sahli Sondes, Jlidi Said
Pediatric Surgery Department, Bechir Hamza Children Hospital, Tunis

2. Strangulated Inguinal Hernia Revealing Peritoneal Tuberculosis

mariem boukettaya, Sghairoun Nada ,zouaoui aryj, ezzine rym, souha, Sahli Sondes, Jlidi Said
Pediatric Surgery Department, Bechir Hamza Children Hospital, Tunis

3. Post-Traumatic Hernias in Children: what are the particularities ?

Abir jouini, Fatma Thamri, Rym Ezzine, Nada Sghairoun, Yosra Kerkeni, Sondes Sahli, Riadh Jouini, Said Jlidi
Department of Pediatric Surgery, Children's Hospital of Tunis,

4. What is the best way to diagnose a metachronous hernia in a child operated for unilateral inguinal hernia?

Abir jouini, Fatma Thamri, Rym Ezzine, Nada Sghairoun, Yosra Kerkeni, Sondes Sahli, Riadh Jouini, Said Jlidi
Department of Pediatric Surgery, Children's Hospital of Tunis,

5. Gestion d'une volumineuse éventration grâce à une plaque biface : A propos d'un cas

Mouna Rachdi, Jasser Hajouni, Atef Chamackh, Helmi Zebda, Wassim Riah
iService de chirurgie générale - Hopital regional de Beja

6. Pancreatic neuroendocrine tumors (pnet) complicated by spontaneous bleeding (case report)

Ben Nejma Eya, Nasri Salsabil, Ben Safta Amine, Samaali Imen , Bouasker Ibtissem, Nouira Ramzi
Service de chirurgie B, Hopital Charles Nicolle

7. Hernie diaphragmatique congénitale récidivée.

Ben Nejma Eya, Nasri Salsabil, Ben Safta Amine, Samaali Imen , Bouasker Ibtissem, Nouira Ramzi
Service de chirurgie B, Hopital Charles Nicolle

8. Beyond Expectation: Rare Bowel Injury from Pediatric Umbilical Hernia Strangulation

Arije Zouaoui, Abir Jouini, Skander Smaoui, Mariem Boukettaya, Yosra Kerkeni, Riadh Jouini, Said Jlidi
Service de Chirurgie Pédiatrique Hôpital d'enfants de Tunis

9. When Classical Repair Fails: Can Mesh Be a Solution in Pediatric Hernias?

Arije Zouaoui, Abir Jouini, Skander Smaoui, Mariem Boukettaya, Yosra Kerkeni, Riadh Jouini, Dr. Said Jlidi
Service de Chirurgie Pédiatrique Hôpital d'enfants de Tunis

10. Pediatric inguinal hernia: Can follow-up alone replace early repair?

Abir Jouini, Fatma Thamri, Rim Ezzine, Nada Sghairoun, Yosra Kerkeni, Sondes Sahli, Riadh Jouini, Said Jlidi
Department of Pediatric Surgery, Children's Hospital of Tunis, Tunisia

16h- 17h30: Session 8: Joint Session with ATC (10min+3min)

Moderators : Nafaa Arfaa, Ben slimen Taher, Ben Amar Mohamed, Alexey Svrtsev

1-Anatomie de la région hiatale.

Houda Gazzeh

2-Épidémiologie, classification et bilan préopératoire de la hernie hiatale

Achref Sarraj

3. Indications chirurgicales : quand opérer ?

Salsabil Nasri

4. Techniques opératoires

Ahmed saidani

5. Gestion des hernies géantes , récidivantes et compliquées.

Asma sghaier

6. Complications post-opératoires et leur prévention.

Zied hdirich

7. hernie hiatale et obésité morbide.

Souhaib atri

***DAY 3*: 13-12-2025**

9h-10h30: Session 10: Keynote Lectures III (Pediatric surgery Session) (15 min+5)

Moderators: Riadh Jouini, Yosra Kerkeni, Nada Sghairoun, Hayet Zitouni

- 1. Inguinal hernia repair in children: What is the best approach?**
Fatma Thamri (Tunis, Tunisie)
- 2. Artificial intelligence in surgical techniques and modalities for pediatric abdominal wall defects.**
Nahla Kechiche (Monastir, Tunisia)
- 3. Evisceration after neonatal surgery: Why, When and how to manage.**
Asma Guitouni (Tunis, Tunisia)
- 4. The pediatric Groin: Anatomical insights for better surgical outcomes.**
Oussama Mehrezi (Tunis, Tunisia)
- 5. Rare inguinal hernia in children: How to manage.**
Malek Boughdir (Nabeul, Tunisia)

10H30-12H: Session 11: Oral Presentation III (8 min+2min)

Moderators: Boujelben Salah, Ben Slima Mohamed, Noemen Faouzi, Ben Salah Khalil, Sabri Youssef

- 1. Lecture (15min+ 3min): Understanding and preventing recurrent inguinal hernia in pediatric surgery**
Hayet Zitouni (Sfax, Tunisia)
- 2. Lecture (10 min + 3 min): Inguinal hernia repair with or without mesh in pediatric population**
Houda Kamoun (Menzel Bourguiba)
- 3. Place des Techniques ouvertes (Lichtenstein VS Stoppa) dans la réparation de la hernie inguinale bilatérale à l'ère laparoscopique**
*Sabiha Belhouas, Ali Bennani, Aomar Benchaabane, Abdelkader Bouazza, Samir Mahfouf , Faiza Taib, Abdelah Boudiaf, Ibtissem Bezghoud, Berkane salah
Service de Chirurgie viscérale et oncologique EPH Bologhine Ibn Ziri (Algeria)*
- 3. Réparer les éventrations : le duel laparo-classique.**
*Bouchakour errahmani sarah, laouissat sarra ,belalaj abderaham ,benkada mohamed
Service chirurgie générale mostaganem (ALGERIE)*
- 4. Analyse comparative des issues chirurgicales dans la réparation inguinale par laparoscopie et par voie ouverte**
*Ben Hassine Basma, Rabti.S, Lahour.O, Ben Marzouk.S, Ferjaoui.W, Khalifa.MB
Service de chirurgie viscérale de l'hôpital militaire de Tunis*
- 5. LAP IPOM+ : A propos de 105 cas, indications et résultats**
*A. MENASRIA - N. CHADLI – A. REMINI – A. BENSLIMANE –A. BELKADI – N. TAHLAITI – R. MAHIEDDINE – R. DJAID – A. HALIMI – M. BOUBEKEUR - O. TILIOUA.
EHU ORAN (ALGERIA)*
- 6. Management of Congenital Diaphragmatic Hernias: A Single-Center Experience**
*Karray Amina,Wiem Hammouda, Abir Jouini, Faouzi Noura, Said Jilidi
Paediatric Surgery Department, Bechir Hamza Children Hospital, Tunis, Tunisia*

7. Timing of Inguinal Hernia Repair in Children: Does Delay Increase the Risk of Complications?

Rim Ezzine, Nada Sghairoun, Mariem Boukettaya, Senda Houidi, Souha Sholi, Sondes Sahli,. Said Jlidi
Service de chirurgie pédiatrique- Hopital d'enfants de Tunis

8. Infantile congenital diaphragmatic eventration: diagnostic challenges and surgical outcomes

Rim Ezzine, Maryem Marzouki, Yosra Ben Ahmed, Jouini Abir, Faouizi Nouria, Said Jlidi

Service / Affiliation: service de chirurgie pédiatrique- Hopital d'enfants de Tunis

12H-13H30: Elective General Meeting
